

# CITY OF LODI

## COUNCIL COMMUNICATION

**AGENDA TITLE:** Set Public Hearing for November 2, 1994 to Consider the Eastside Alley Lighting Project

**MEETING DATE:** October 5, 1994

**PREPARED BY:** Community Development Director

**RECOMMENDED ACTION:** That the City Council set a public hearing to consider staff recommendations and citizen input regarding the installation of new light fixtures in alleys as a part of the Eastside Alley Lighting Project. It is also being requested that the City Council approve staff recommendations as presented, unless public concerns warrant otherwise. Finally, it is being requested that the City Council authorize the advertisement of bids for this project.

**BACKGROUND INFORMATION:** At the request of the Eastside Improvement Committee, the City allocated \$100,000 in Community Development Block Grant funds from the 1993-94 entitlement for the Eastside Alley

Lighting project. The project area is bordered by Lockeford Street, Cherokee Lane, Kettleman Lane, and the Southern Pacific Railroad Tracks. In consultation with the Lodi Police Department and the Eastside Improvement Committee, staff determined that all alleys in this area need additional illumination.

According to the Lodi Police Department and the Eastside Improvement Committee, Railroad Avenue is especially dark and generates many police calls. For this reason, Railroad Avenue will also get new lights.

In order to quickly install as many new lights as possible as inexpensively as possible, new lights are only being added to existing poles and standards. No new light standards will be installed at this time. Installing 150 lights, the cost of the project will approximate \$45,000. This will leave a remaining balance of around \$55,000 to pursue Phase II of this project, possibly next year. At that time, additional alley and street locations will be considered.

**FUNDING:** Community Development Block Grant Funds
